

## Safety Hook

### VESTDAVIT Offload Release Hook

VESTDAVIT LB-Hook is an offload hook designed for use with a fixed eye attached to the boat (wire fall attached hook).

The hook is equipped with handle for easy control. The release is by an outside trigger rope.

After release, the hook will remain in a position ready to connect again.

An external toggle line to the hook can be attached to guide the hook to the lifting point.

VESTDAVIT LB-HOOKS are Certified SAFETY HOOKS with SWL from 1.5 - 10 T.

Patented
